

17 September 2012

To whom it may concern,

This letter serves as a recommendation of excellent service and outstanding First aid and emergency training.

Forestway has been trained in First Aid by Andrew Miller from SMART for the past number of years and we have consistently been stunned by the enthusiasm in which the courses have been presented!

It is not only enthusiasm that emanates from Andrew but vital and relevant facts and information, way beyond the required content of any 'normal' First Aid course.

As an Outdoor Education Centre, providing adventure based activities, we need to be prepared for any emergency we might face, from a nasty scratch to a broken leg!

Andrew has instilled both the knowledge and the skill that the Forestway team need to face their day in confidence!

Kind regards,

Graham Marshall

Programme Director

Forestway Outdoor Centre
