

# Hazard Identification & Risk Assessment Training Programme

Health and safety issues are becoming increasingly important in the modern industrial world. Risk assessment is a core element of health and safety management. Risk and safety management play an important part in every business success. Identifying the various types of hazards/risks and the implications that each might have on an organisation, as well as highlighting the business benefits that can be obtained through successful risk and safety management all need to be included in an overall company strategy.

## Why Hazard Identification & Risk Assessment Training?

With the introduction of the Mine Health and Safety Act, 1996, industries have to assess where they are in terms of risk, identifying the major risks and thereby establishing their priorities and a risk assessment system for future risk control. As circumstances and needs arise, separate risk assessment studies need to be conducted. These will normally be associated with a system for the management of change. An additional risk assessment needs to be carried out when, for example: a system of work is changed or operations alter from the current, after a serious accident or re-occurrence of similar types of incidents/accidents occur.

## Who should attend?

Any staff member selected to be the health, safety & environmental representative and who is responsible for the identification of hazards and the analysis of the associated risks.

5 days

## Course Fee

R4 995.00 per person

Included in the fee: Learner workbooks, reference legislation, practical real world risk assessment, risk assessment matrix, hazard identification & risk analysis documentation, Certificate

## Features of The S.M.A.R.T. Solution services

- Facilitators and trainers are recruited from the emergency services - this means that a facilitator with real-time practical experience in emergencies and life threatening situations facilitate the learner
- Extra modules can be added to the course at the clients request - thus allowing for the tailor making of the course content to suit the clients individual needs and requirements without deviating from the legal requirements and current DOL legislation
- Courses are structured on a 50% theory and 50% practical format and are all outcomes based - this ensures that each learner receives maximum hands-on practical instruction in the acquisition of specific psycho-motor skills, as well as a thorough cognitive understanding of the relevant theory, thereby enhancing the learners level of confidence and competence
- For First Aid training each learner receives their own "Personal Training Pack" for the duration of the course - this eliminates 'front-of-class' embarrassment, reduces the chance of cross-contamination and enhances personal hygiene
- Training is conducted nation-wide at no extra cost to the course attendance fee - this affords multi-national companies and organisations the opportunity to have employees and members trained countrywide, thus creating uniformity and standardization of knowledge within the organisation (Conditions Apply)
- We cater for all literacy levels - this enables learners from all social and business levels to attend our learning interventions
- We utilise a unique facilitating method with an "easy-to-learn" format - this method creates an accelerated learning curve and enhances long-term memory retention
- We pride ourselves on professionalism, reliability and punctuality - this will ensure that we will become the preferred service provider and quality assessor for first aid training

## Terms and Conditions

- A minimum of ten (10) delegates will be charged for
- Maximum 15 delegates per instructor (for quality purposes)
- VAT is not applicable (application pending)
- Fuel, toll fees, accommodation and meals to be provided for the instructor/s for training conducted outside the Greater Johannesburg region (whichever applicable)
- Maximum certificate validity period for First Aid is 3yrs
- Maximum certificate validity period for Fire Fighting is 1yr
- All other certificates valid for 1yr
- Full payment is required five (5) working days prior to the start of training
